

Software2 Accessibility Conformance Report

VPAT® Version 2.0 – October 2018

Name of Product/Version: AppsAnywhere 2.6

Product Description: A web-based interface for delivering apps to end-users.

Date: October 2018

Contact information: Ryan Heath <ryan.heath@software2.com>

Notes:

Evaluation Methods Used: Testing is based on general product knowledge

Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
Web Content Accessibility Guidelines 2.0, at http://www.w3.org/TR/2008/REC-WCAG20-20081211/	Level A: Yes Level AA: Yes Level AAA: No
Section 508 as published in 2017, at http://www.Section508.gov	No
EN 301 549 Accessibility requirements suitable for public procurement of ICT products and services in Europe, at http://mandate376.standards.eu/standard	No

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Supports with Exceptions:** Some functionality of the product does not meet the criterion.
- **Does Not Support:** The majority of product functionality does not meet the criterion.
- **Not Applicable:** The criterion is not relevant to the product.
- **Not Evaluated:** The product has not been evaluated against the criterion. This can be used only in WCAG 2.0 Level AAA.

WCAG 2.0 Report

Tables 1 and 2 also document conformance with:

- EN 301 549: Chapter 9 - Web, Chapter 10 - Non-Web documents, Section 11.2.1- Non-Web Software (excluding closed functionality), and Section 11.2.2 - Non-Web Software (closed functionality).
- Revised Section 508: Chapter 5 – 501.1 Scope, 504.2 Content Creation or Editing, and Chapter 6 – 602.3 Electronic Support Documentation.

Note: When reporting on conformance with the WCAG 2.0 Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.0 Conformance Requirements](#).

Table 1: Success Criteria, Level A

Notes:

Criteria	Conformance Level	Remarks and Explanations
1.1.1 Non-text Content (Level A)	Supports	All contextually relevant images have a text-based alternative

Criteria	Conformance Level	Remarks and Explanations
1.2.1 Audio-only and Video-only (Prerecorded) (Level A)	Supports	Product does not contain any audio or video elements
1.2.2 Captions (Prerecorded) (Level A)	Supports	Product does not contain any audio or video elements
1.2.3 Audio Description or Media Alternative (Prerecorded) (Level A)	Supports	Product does not contain any audio or video elements
1.3.1 Info and Relationships (Level A)	Supports	Each element relevant to a particular app in the portal has hidden text values to re-enforce its relationship to the app itself (e.g. "Launch" buttons have additional text to present "Launch [App Name]" to screen readers). ARIA attributes are used to portray the role of each page area
1.3.2 Meaningful Sequence (Level A)	Supports	All elements are laid out by CSS and presented in HTML in a meaningful sequence
1.3.3 Sensory Characteristics (Level A)	Supports with Exceptions	In general, cues related to positioning are not part of the interface with the exception of the welcome tour which visually walks the user around the interface, which may not be helpful for users not interpreting the content visually
1.4.1 Use of Color (Level A)	Supports	While colors are used to indicate status, they are not used as the only means of determining any information being portrayed or actions required
1.4.2 Audio Control (Level A)	Supports	Product does not contain any audio or video elements
2.1.1 Keyboard (Level A)	Supports	All elements of AppsAnywhere can be navigated using keyboard input alone.
2.1.2 No Keyboard Trap (Level A)	Supports	No elements within the product trap keyboard input
2.2.1 Timing Adjustable (Level A)	Supports	There are no time limits to any actions implemented in the product
2.2.2 Pause, Stop, Hide (Level A)	Supports	The product does not include any moving, blinking or scrolling information
2.3.1 Three Flashes or Below Threshold (Level A)	Supports	The product does not contain any flashing content
2.4.1 Bypass Blocks (Level A)	Supports	A skip to content option is available to users at the top of the page.
2.4.2 Page Titled (Level A)	Supports with Exceptions	Supported in the front-end interface used by the vast majority of users but not in the admin interface

Criteria	Conformance Level	Remarks and Explanations
2.4.3 Focus Order (Level A)	Supports	All page elements can be accessed using keyboard input in a logical order.
2.4.4 Link Purpose (In Context) (Level A)	Supports	All links are described within the link text
3.1.1 Language of Page (Level A)	Supports	Language of the page is embedded within the top-level html tag
3.2.1 On Focus (Level A)	Supports	The only elements that change on focus are menu items and the app cards but the context still remains related to the item that was focused
3.2.2 On Input (Level A)	Supports with Exceptions	Use of the More Info button for an app could potentially disorient the user as it results in a significant change to the presentation of content, but we are unsure whether this would constitute a change of context and this require further evaluation.
3.3.1 Error Identification (Level A)	Supports	All errors related to user input are described textually
3.3.2 Labels or Instructions (Level A)	Supports	All input elements have an associated label that describes the input required
4.1.1 Parsing (Level A)	Supports	All HTML is verified as valid in the development IDE
4.1.2 Name, A Role, Value (Level A)	Supports	All HTML controls are used in according to their specification

Table 2: Success Criteria, Level AA

Notes:

Criteria	Conformance Level	Remarks and Explanations
1.2.4 Captions (Live) (Level AA)	Supports	Product does not contain any live audio or video elements
1.2.5 Audio Description (Prerecorded) (Level AA)	Supports	Product does not contain any pre-recorded audio or video elements
1.4.3 Contrast (Minimum) (Level AA)	Supports	All textual elements have a contrast ratio of at least 4.5:1
1.4.4 Resize text (Level AA)	Supports	The system is designed with responsiveness in mind and as such, all elements support the natural browser functionality for re-sizing text to any level
1.4.5 Images of Text (Level AA)	Supports	Only the logo in the header contains any text represented as an image and this is not essential to the operation of the product
2.4.5 Multiple Ways (Level AA)	Supports	Live search is available for locating apps within the content list
2.4.6 Headings and Labels (Level AA)	Supports	Headings and labels are used throughout the product to indicate structure and purpose
2.4.7 Focus Visible (Level AA)	Supports	Where keyboard navigation is used, effort has been made to highlight the element that currently has focus by some visual means
3.1.2 Language of Parts (Level AA)	Supports	Language of the page is embedded within the top-level html tag
3.2.3 Consistent Navigation (Level AA)	Supports	Navigation elements are exactly the same throughout the product
3.2.4 Consistent Identification (Level AA)	Supports	Elements that provide consistent functionality within the product are labeled consistently
3.3.3 Error Suggestion (Level AA)	Supports	All input errors indicate the cause and required resolution
3.3.4 Error Prevention (Legal, Financial, Data) (Level AA)	Supports	No elements within the product cause legal commitments or financial transactions

Table 3: Success Criteria, Level AAA

Notes: Product is not evaluated to the AAA level of WCAG
