Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports:** Some functionality of the product does not meet the criterion.
- **Does Not Support:** The majority of product functionality does not meet the criterion.
- **Not Applicable:** The criterion is not relevant to the product.
- **Not Evaluated:** The product has not been evaluated against the criterion. This can be used only in WCAG 2.0 Level AAA.

WCAG 2.x Report

Tables 1 and 2 also document conformance with:

- EN 301 549: Chapter 9 - Web, Sections 10.1-10.4 of Chapter 10 - Non-Web documents, and Sections 11.1-11.4 and 11.8.2 of Chapter 11 - Non-Web Software (open and closed functionality), and Sections 12.1.2 and 12.2.4 of Chapter 12 – Documentation
- Revised Section 508: Chapter 5 – 501.1 Scope, 504.2 Content Creation or Editing, and Chapter 6 – 602.3 Electronic Support Documentation.

Note: When reporting on conformance with the WCAG 2.x Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.0 Conformance Requirements](#).

This alternate page is presented in simplified list format and does not rely on color to convey meaning.</p> <p>Electronic Docs: We don't use color to convey meaning in our help documentation.</p> <p>Authoring Tool: The Equipment and Spaces modules have availability grids which rely primarily on color as a means of displaying available and unavailable times. We are updating this behavior to include cell labels in addition to color. It's also possible to retrieve equivalent availability and booking data via other means – availability can be determined via Add Booking button (where all available slots are presented in list format, independent of color) and upcoming bookings can be viewed in table format via the Booking Explorer. Various links such as 'Powered by Springshare' in the footer section of each page is not underlined or do not conform to the 3:1 color contrast ratio.</p>

However, we do not update the focus to the location field and there's no visual indication that there is an error with that field via red outline.</p>

The interface does include javascript success messages; we’re working to eliminate the use of these in favor of onscreen success messages which can make better use of aria roles.</p>

Chapter 3: [Functional Performance Criteria \(FPC\)](#)

Notes:

Criteria	Conformance Level	Remarks and Explanations
302.1 Without Vision	Partially Supports	<p>We have tested all elements of the LibCal interface using VoiceOver, and regularly test LibCal using Tota11y, SiteImprove, and Wave. Page content is structured in a meaningful hierarchy and can be navigated and understood using a keyboard and/or screenreader, and we strive to make sure all development is executed in a way that's meaningful and clearly understandable to users without vision. We are currently in the process of expanding our use of name and role elements to reach full conformance for users without vision.</p>
302.2 With Limited Vision	Supports	LibCal can be used with limited vision
302.3 Without Perception of Color	Partially Supports	<p>LibCal generally does not rely on color to convey meaning. The exception to this is the Spaces and Equipment availability grids, where color is used within a table to convey available and unavailable time slots. On the public side, we provide a special assistive-technology-friendly view of the booking pages which are rendered in list format (so color is not used at all to render meaning in this special page).</p> <p>On the admin side, we're working to update the admin side availability grids, including adding relevant labels to particular grid items and making it possible to navigate to the color legend. It's also possible to use the Booking Explorer to view all upcoming bookings</p>

Criteria	Conformance Level	Remarks and Explanations
		without color perception, and the Add Booking function will also display all upcoming availability without reliance on color to convey meaning (so there are equivalent functions for the availability tables).
302.4 Without Hearing	Supports	LibCal does not contain audio/video elements by default (though this content can be embedded from 3rd party sites into LibCal).
302.5 With Limited Hearing	Supports	LibCal does not contain audio/video elements by default (though this content can be embedded from 3rd party sites into LibCal).
302.6 Without Speech	Supports	LibCal does not require speech to function.
302.7 With Limited Manipulation	Supports	LibCal is usable by people with limited manipulation, and all page elements are reachable using the keyboard.
302.8 With Limited Reach and Strength	Supports	
302.9 With Limited Language, Cognitive, and Learning Abilities	Supports
